

Q8 Scarlatti 68

High performance compressor oil

Description

Q8 Scarlatti 68 is a high performance compressor oil based on selected premium (Group II) base fluids. This product is developed for use in all reciprocating-, rotary- and vane type compressors. It is designed as part of the Q80ils clean technology program to ensure superior compressor cleanliness in combination with long oil life. It meets the challenges of the latest generation compressors.

Applications

All reciprocating- (piston), rotary screw- and vane type compressors Single- and multistage air compressors in both stationary- and mobile applications

Features	Benefits
Lower operational costs	Extended quality all-round product for every type of compressor and vacuum pump
Own product development	Formulated with high quality Group II base oil
Enhanced technology	Outstanding deposit control to keep the compressor clean, even under severe conditions
