

Q8 Brahms 7002

Fluid for light duty forming and high speed punching

Description

Low viscosity, chlorine-free ferrous and non-ferrous forming oil with excellent evaporation properties.

Applications

Q8 Brahms 7002 is recommended for the continual cold rolling and pressing of steel. It can be also recommended for the shearing of thin aluminium, galvanized steel and ferrous sheets.

User instructions

In order to preserve the integrity of this product, drums should be stored inside a building protected from frost and direct sunlight.

Environment, Health and Safety

Please consult the Material Safety Data Sheet for instructions regarding safe handling and environmental issues.

Properties

	Method	Unit	Typical
Appearance	Visual	-	Bright and Clear
Density, 15 °C	D 4052	g/ml	0.82
Kinematic Viscosity, 40 °C	D 445	mm ² /s	3
Flash Point, COC	D 92	°C	140
Copper Strip, 3 h, 100 °C	D 130	-	1A

The figures above are not a specification. They are typical figures obtained within production tolerances.

Remarks

Please contact your Q8Oils representative for further advice and support on your specific application and equipment.
