

Q8 Mahler MA SAE 40

Advanced stationary gas engine oil

Description

Q8 Mahler MA is an advanced gas engine oil, based on premium Group II (hydrotreated) base fluid. This product is designed as part of the Q8Oils gas engine oil technology program, which benefits from in-house developments and customized solutions.

Applications

Engine Lean-burn and stoichiometric four-stroke stationary gas engines, including high BMEP type. Operations Mild to severe conditions, including high pressure, high load and high temperature operations. Gas type Natural gas, also suitably for special gases requiring a low ash gas engine oil.

Features

Extended drain

Benefits

Advanced alkalinity reserve maintains engine performance and durability while extending oil drain interval

Own product development

In-house developed advanced additive package in combination with a carefully chosen Group II base oil

Enhanced technology

High lubricity properties providing low wear of engine components, significantly reducing maintenance costs
