

Q8 Stravinsky N 46

High performance refrigeration compressor oil

Description

Q8 Stravinsky N 46 is a high performance refrigeration compressor oil. It is developed with premium selected naphtenic base fluid. The product is recommended for use with CFC-, HCFC- or traditional type refrigerant (such as ammonia). The low pour point and outstanding fluidity at low temperature ensure problem-free operations.

Applications

Reciprocating- and rotary refrigerator compressors Industrial applications such as refrigerators and freezers Refrigerating systems handling CFC-, HCFC- or traditional type refrigerant (such as ammonia)

| Features | Benefits |
|---------------------|---|
| Enhanced technology | Fully compatible with mineral oils and normally used elastomer/plastic materials in compressor equipment |
| Extended drain | Advanced oxidative stability, guaranteeing long oil life under continuous and severe operating conditions |
| Safety | Tailored to the specific needs of your equipment to ensure safe and reliable operations |
